We are pleased to provide this letter of recommendation on behalf of Arthur Electric.

Over the last several years we have worked closely with Arthur Electric on a wide variety of projects and have been consistently pleased with their professionalism, quality of work and well developed sense of urgency.

The New Apostolic Churches in Brampton and Lindsay are good examples of successful projects that we have completed together. Arthur Electric carried out the project responsibilities on time and within budget at the New Apostolic Church in Brampton over ten months in 2004 under the administration of Mr. Sam Bysma, site superintendent. The total electrical contract value of this project is \$320,000.00.

We have been also impressed by the quality of their services provided at the New Apostolic Church in Lindsay completed over 8 months in 2005. Under the administration of Mr. Adam Evans, site superintendent, Arthur Electric completed all responsibilities, once again, on time and within budget. The total electrical contract value of this project is \$204,000.00.

We find Arthur Electric to be a very capable, cooperative, professional team suitable for projects ranging from large facilities to small renovations. They have demonstrated proficiency in handling the challenging conditions of each project and the rigorous requirements of the schedule.

We have no hesitation in recommending Arthur Electric for future projects. Should you require further information please do not hesitate to call.

Sincerely,

Andrew Gubbels, P. Eng.  
Electrical Engineer
